APPS THAT ACTUALLY WORK

We develop and program custom software, business ERP systems, websites, online stores and e-commerce solutions, web applications, Facebook and Android apps, Smart Home technologies ...

APPS THAT ACTUALLY WORK

Our products are not just applicable in the daily workflow of our customers — they have crucial impact for perfectly organized and controlled vital business, industrial, technological, logistical, financial, commercial, communication operations and processes.

100+ SATISFIED CUSTOMERS

Many of our clients — *financial institutions, industrial companies, providers of IT services, hotels, travel agencies, sports clubs and many more* — recognize us as a longstanding, loyal and trustful business partner.

ACCENT-D developed our new corporate website. The presence we achieved in the web surpassed our expectations. The visits to our website increased significantly, the number of inquiries we receive there tripled, as well as the number of new customers.

CEO,
Emveko Ltd

EXPERTISE AND PROFICIENCY

Our commitment towards the problems of our clients we are called to solve for them, together with the rich instrumentation and robust know-how we handle, we managed to build a name of a serious professional who succeeds where many others often fail.

“

*We are delighted that we found Accent-D.
They have a talented team who have solved problems in
hours that other so called "experts" couldn't fix.*

*They have a transparent fee schedule and an honest
approach to pricing and delivering work that makes them
head and shoulders above anyone I have ever worked with
in this field.*

”

Gavin Presman
The Inspiration Factory,
London

WEB ENGINEERING

Our continuous growth suggested the unification of our services under one term describing them best — **"*software web engineering*"** — design and creation of flawlessly operating sophisticated software solutions and long-term partnerships.

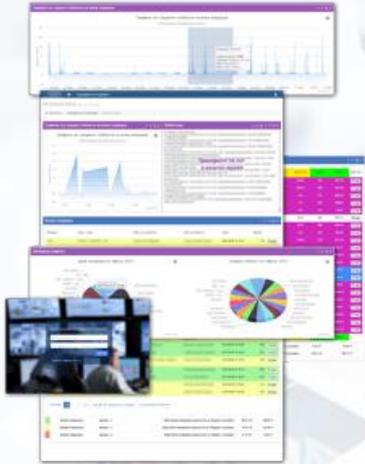

WORLDWIDE ACKNOWLEDGEMENT

Quite logically, for over 10 years now we are working successfully in the global IT market and successfully built strong long-term partnerships in Bulgaria, Austria, England, Germany, Switzerland, Wales, Italy.
